

The ALPIVAR - ALPIBLOC - PANEL - RACK - ALPIMATIC and ALPISTATIC product ranges described in this catalogue correspond to the most common standard units. All of these products can be manufactured for other electrical characteristics (frequency, voltage, power, coupling, etc.) and in particular:

- frequency 60 Hz and other frequencies for special applications
- single-phase voltages
- dual voltage with retained power
- other standard voltages: 240 - 415 - 480 - 500 - 530 - 550 - 600 - 690 - 800 V ...
- other power ratings on request.

Please contact our technical sales department with your special requests.
